

Mature bark is dark brown, rough, and grooved. Young bark is green-brown and smooth.

Needles are arranged like a bottlebrush with brown buds.

Photo by Heidi Bohan

This evergreen tree can reach 210' tall.

Photo by Heidi Bohan

Green to reddish-brown cones have bracts that protrude from under scales like a 'mousetail.'

PNW Native Plant  
PPNC: 32

### Douglas Fir

*Pseudotsuga menziesii*
