

General: Perennial; 2'-4' tall

New growth

Flowers: Red – yellow rounded clusters

Photo by Heidi Bohan

Form: Spreading to upright weak stalks

Seedpods

Photo by Heidi Bohan

Similar Non-native
Bird's foot trefoil, *Lotus corniculatus*, is a similar less common species with a taproot.

Management Strategies

- Always remove
- Rhizomatous roots: Remove rhizomes
- Primary spread: Seed, rhizomes

Check with parks department or school district for proper disposal.

Big Bird's-foot Trefoil

Lotus pedunculatus

A Non-native Plant

WPGS: 206

Native Look-alike

Big Deer Vetch, L. crassifolius, has 7-15 leaflets (as opposed to 3-5) with yellowish or white flowers tinged with purple, and is uncommon.
