

General: Annual; 1'-3' tall

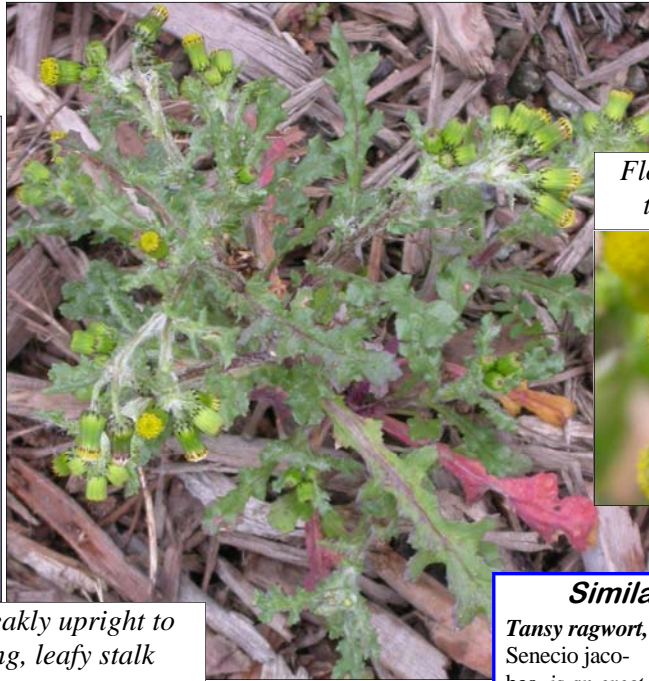

Leaves: Crisp and irregularly lobed

Young growth

Form: Weakly upright to sprawling, leafy stalk

Flowers: Yellow flowers turn into fluffy seeds

**Similar Non-natives**

Tansy ragwort, *Senecio jacobea*, is an erect, tall biennial, that is listed as a Class A noxious weed.

**Management Strategies**

- Non-designated noxious weed
- Always remove
- Taproot: Remove all fragments
- Primary spread: Seed

Check with parks department or school district for proper disposal.

# Common Groundsel

*Senecio vulgaris*

WPGS: 316

A Non-native Plant
