

General: Perennial; up to 3' tall

Leaves: Flat, 1/8"-3/8", hairless to hairy, up to 18"

Young growth

Form: Low spreading with long flower stalks

Flower/Seedhead: Long spike

Long rhizomes

Management Strategies

- Always remove
- Fibrous roots along stolons: Remove all fragments
- Primary spread: Seed, rhizomes, stolons

Check with parks department or school district for proper disposal.

Quackgrass *Agropyron repens*

Native Look-alike

Blue Wild Rye, *Elymus glaucus*, has a similar seedhead, but is not rhizomatous and grows in a tufted clump.

WPGS: 362

A Non-native Plant
