

General: Annual, biennial or short-lived perennial; up to 16" tall

Hairy red stems

Seedling

All parts have a strong odor when crushed

Mature plant

Pink flowers turn into beak-shaped seedheads

Seedheads

Form: Rosette with weak upright to spreading branches, forming masses

## Herb-Robert, Stinky Bob

### *Geranium robertianum*

A Non-native Plant

WPGS: 222

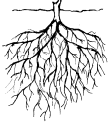

© Starflower Foundation 2006

**Management Strategies**

- Non-designated noxious weed
- Always remove
- Fibrous root: Remove major
- Primary spread: Seed

Note: Aggressively dominates; tolerates deep shade and spreads rapidly

Check with parks department or school district for proper disposal

**Native Look-alike**

*Dicentra formosa*, Pacific bleeding heart, has similar young growth in early spring, but is hairless, grows from rhizomes, has upright stems and doesn't have a strong odor.
